

DIGIPLAY

ARCADE PAYMENT SOLUTIONS

BOOST YOUR SALES WITH DIGIPLAY PAYMENT SYSTEMS

Maximize the potential of your entertainment center with Digiplay Arcade, the cashless payment system that streamlines every transaction. Say goodbye to long lines: your customers can pay directly at the machines quickly, securely, and digitally.

In addition, we have comprehensive solutions to optimize your business:

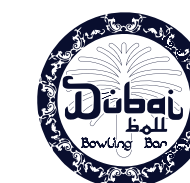

Digi Reader: Terminal that processes credit cards, debit cards and QR payments.

Digi Kiosk: Groups all cash in a single Token point of sale.

Digi App: Monitor your sales and performance in real time from anywhere.

Perfect for any entertainment business seeking innovation, efficiency, and increased profits.

Satisfied Customers

**MINIMAL COMMISSION,
MAXIMUM COMPATIBILITY**

The most compatible card payment system on the market, with the lowest banking commission:

2,50%

SET UP YOUR PAYMENT SYSTEM **IN 5 MINUTES**

Implementing payment systems on entertainment machines has never been easier. At Digiplay, we offer payment terminals (POS) that can be installed in just 5 minutes **without the need for a technician.**

These devices allow your customers to pay directly at the machine with credit cards, debit cards, or contactless methods (NFC), optimizing the gaming experience and simplifying transactions in your entertainment center.

HOW DO OUR PAYMENT TERMINALS WORK?

Our payment terminals are advanced devices that process electronic transactions in real-time. They accept multiple payment methods for maximum convenience:

SIMPLE INTEGRATION WITH ENTERTAINMENT MACHINES

At Digiplay, we've optimized the integration of our payment terminals (POS) to be quick and easy for your entertainment machines.

Access Control System:

For added security, the entertainment machine only grants access to the game once payment is verified and authorized.

PAYMENT PROCESS IN DIGIPLAY MACHINES

START THE PAYMENT

The user selects the game and is prompted to make the payment.

AUTHORIZE THE TRANSACTION

The customer swipes their card or device, and the terminal connects to the network to authorize the payment.

CONFIRMATION

Once payment is approved, the POS sends a signal to the Digiplay machine indicating success.

GAME ACTIVATION

The machine activates the game, providing the customer with an immediate experience.

DIGI READER

**PAYMENT OF COLLECTION
DAILY.**

*All in one. Accepts credit/debit
cards from any country and
payment by QR*

**WITH THE LOWEST BANKING
COMMISSION.**

THE IDEAL SYSTEM FOR ENTERTAINMENT AND SELF-SERVICE

The Digiplay payment system is perfect for entertainment settings like bowling alleys and arcade machines. Its compact, durable design enables quick installation on self-service equipment, offering users a modern, seamless payment experience.

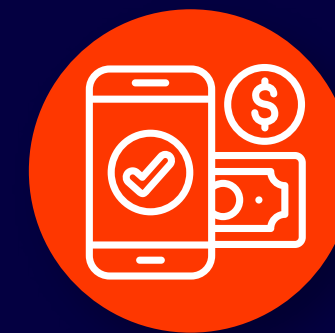

INTEGRATION WITH **PLUG & PLAY**

IN LESS THAN 5 MINUTES ON ANY
MACHINE ON THE MARKET

Quick Integration

Compatible with any machine on the market in less than 5 minutes, without complex configurations.

Contactless and Digital Payments

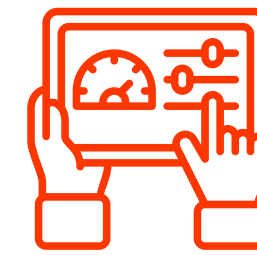

Accepts contactless cards, digital wallets (Apple Pay, Google Pay) and QR Payment (bizum), offering a fast and secure payment experience.

Remote Management and Maintenance

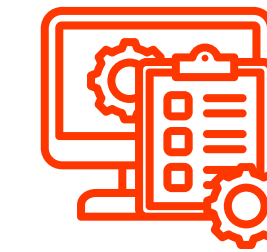

Enables software updates and remote support, optimizing operations without physical intervention.

CONTROL YOUR EARNINGS

REAL-TIME MONITORING

Instant access to sales and transaction data from a central platform, enabling continuous income tracking.

INVENTORY MANAGEMENT

Tools to control stock and receive automatic alerts, avoiding shortages and maximizing sales.

FINANCIAL REPORTS

Automatic generation of detailed reports for easy auditing and financial performance analysis.

ADVANCED SECURITY

Encryption and authentication to reduce fraud and errors, enhancing cashless payment security.

DIGI KIOSK

The DIGI KIOSK stands out for being the ideal solution to centralize the handling of cash in leisure centers.

It groups all the money in a single point through the sale of tokens, eliminating the need to handle cash dispersed in several machines. This system not only minimizes the risk of theft, but also avoids problems related to cash management by staff, providing security, control and peace of mind to the entrepreneur.

REVOLUTIONIZE ENTERTAINMENT EXPERIENCES

Transform your customers' experience with Digi Kiosk, the ultimate solution from Digiplay.

The Digi Kiosk is much more than just a token dispensing machine: it is an innovative and flexible point of sale, designed to take your entertainment business to the next level.

This machine allows payments by wallet or card, providing an agile experience adapted to current needs.

Whether for amusement parks, recreational centers, game rooms or arcade machines, the Digi Kiosk guarantees efficiency, speed and comfort for both your customers and your operation.

THE PERFECT PAYMENT SOLUTION FOR YOUR ENTERTAINMENT CENTER

Our Digi Kiosk machines are designed to simplify token purchases with multiple payment methods, adapting to your users' needs.

EASILY CONFIGURE THE PRICE OF YOUR TOKENS, POSSIBILITY OF CREATING SPECIAL PROMOTIONS

CASH PAYMENT:
Your customers will be able to pay with their local coins or bills.

CARD PAYMENT:
Compatible with major debit and credit cards (Visa, Mastercard, etc.).

PAYMENT WITH DIGI READER:
An innovative device for fast payments, compatible with NFC, Apple Pay, and Google Pay.

REAL-TIME SALES AND PERFORMANCE MONITORING TOOL

Optimize the management of your park, arcade, or recreational center with Digi App, the real-time monitoring tool.

Track the performance of your machines, monitor your sales in detail, and receive comprehensive reports to make informed decisions.

Access all key information from your mobile or device, managing your business from anywhere. Digi App improves operational efficiency and ensures an exceptional experience for your customers.
